## Zoning Ordinance Interpretation RE: Child Day Care Home

To Whom it May Concern,

This interpretation is in response to community concern regarding recent regulations regarding in home child care. The Town of Whiteland Zoning Ordinance, and other associated land use ordinances, rely upon the State of Indiana's regulations and has adopted the following state definition.

"As defined by IC 12-7-2-28.6 and for the purposes of this Ordinance, an establishment providing non-overnight care, supervision, and protection of children in private residences which is incidental to the primary residential use. A Child Day Care Home includes at least 6 and not more than 16 children (not including the children for whom the provider is a parent, stepparent, guardian, custodian, or other relatives; or those which are at least age 7 who, at any time, receive child care from a provider: (1) while unattended by a parent, legal guardian, or custodian; (2) for regular compensation; and (3) for more than 4 hours but less than 24 hours in each of 10 consecutive days per year, excluding intervening Saturdays, Sundays, and holidays. The term includes class I child care homes and Class II child care homes as defined by IC 12-7-2-33.7 and IC 12-7-2-33.8."

At this time staff has no intention of considering additional regulations in addition to those provided by the State of Indiana. If additional information is required, please feel free to contact us.

Sincerely,

Joseph Csikos, Planning Director  
Town of Whiteland, Indiana
